

## Exhibitors' Feedback

This year we have debuted as Heinemann Company. Today is the third day, however our target audience still comes. Since our products are already represented in the country for at least two years, we already have a name. But anyhow, despite the third day we have been working with our potential customers. We are pleased that we are participating in one of the largest exhibitions in Central Asia. Our stand was crowded with people from the first day, and we plan to participate the next year as well.

**Mr. Shakhruh Kurbanov,**  
Export Manager G.Heinemann Medizintechnik GmbH

The exhibition has been organized at the high level. The fact that the world's leading manufacturers represent their latest technologies here testifies good prospects for the development of healthcare sector in Uzbekistan. We also brought our new developments to the exhibition. Our digital radiographers, mammography units, dental and anesthetic devices can be used with high efficiency in the area of treatment and diagnostics. A number of our devices is already used in many health facilities in Uzbekistan. This event is a good opportunity to find new partners and exchange experience with colleagues.

**Mr. Yuan Miao,**  
Senior Manager, Perlong medikal

We participate every year, and today we see that the exhibition has become more intensive. Much more companies participate making it very vivid. The level of organization has also improved as to compared to the previous. Our participation has been successful this year. During first days, around 80% of the visitors were professional. The composition of visitors was of quite high quality. We negotiated with all those with whom we have planned, including the existing and new partners. We even signed several contracts. This year, the efficiency of our participation is much higher.

**Ms. Ludmila Aksyonova,**  
Sales Manager, Belkhimpreparaty
