

Feedback from Participants of OGU 2017

It is our third participation in this exhibition. This year, our company has signed the memorandum of understanding on mutual cooperation in the oil and gas sector with NHC Uzbekneftegaz NHC.

Our participation always yields favourable results. We often take part in exhibitions around the world, but here in Uzbekistan we are accorded a hearty welcome and always feel at home.

Rasim Valiev,
Deputy Head of Engineering Science
Department of SOCAR, the State Oil
Company of Azerbaijan Republic.

We represent JUMO, a Spanish company. The Exhibition has been very well organized this year. We are satisfied with the composition of participants and visitors. It is noteworthy that in the first two days there were a lot of oil and gas industry experts, and we established many useful contacts.

Sherzod Gulyamov
JUMO representative in Uzbekistan

We are satisfied not only with the visitors but also with the results of the talks conducted. The Exhibition has been fruitful.
Natalya Bakhramova,
Head of Protocol Department,
ERIELL

The Exhibition has been particularly successful this year. Uzbekistan is considered to be one of the key markets for Turboden, and this Exhibition holds a special place among the oil and gas industry forums.

The participation in the Conference, as well as in B2B meetings, has yielded favourable results. We established a lot of useful contacts and are certain that this event appeared profitable for our company.

Nicola Rossetti,
Business Development Leader in oil and gas
sector, Turboden

This year, it has been our debut participation in the exhibition, and it should be mentioned that it was well-organized. We are satisfied with the composition of participants, the number and quality of visitors. And even on the third day we still can see the oil and gas experts who come up to us to get us engaged in talks. I participated in the Conference, and the speakers impressed me a lot. We have established a fair number of contacts which we are going to consider and work upon, and we are looking forward to participating next year.
Sieglinde Sautter
Head of Division Trade Fairs,
Bavarian national stand

Global Oil & Gas Uzbekistan is an efficient platform for discussing topical issues arising in the global market of hydrocarbons and for identifying new practical mechanisms for partnering and expanding the international cooperation in Uzbekistan.

Global Oil&Gas Uzbekistan Conference 2017

Held annually as part of the Exhibition, the Conference highlights the issues of further priority development of the oil and gas industry in Uzbekistan; the world's best practices; prospects for the development of geological exploration, oil refining and petrochemical industry in Uzbekistan; localization issues, etc. The forum participants are the sponsors and the top management of state-owned and private companies, corporations, international unions, associations, chambers of commerce, and international financial corporations.

Number of exhibitors:
143 participants
from **17** countries

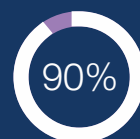

Austria, Azerbaijan, China, Czech Republic, France, Germany, Italy, Kazakhstan, Republic of Korea, Russia, Singapore, Spain, Switzerland, Turkey, the USA, Uzbekistan, and Ukraine.

The B2B format of the meetings and the signing of bilateral documents at the management level of Uzbekneftegaz NHC and the world's leading companies make the programme of the forum eventful and contribute to the high effectiveness of the event.
